AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the December 16, 1998, office action, please amend the above-identified patent application as follows:

In the Claims:

Please amend claims 44 and 81 as follows:

B 1 sub 3
44. (Amended) A method according to claim 1, wherein said subjecting achieves a rate of formation of mismatched ligated product sequences for a particular oligonucleotide probe set which is less than .005 of the rate of formation of matched ligated product sequences for the particular oligonucleotide probe set.

B 2 sub 8
81. (Amended) A method according to claim 80, wherein each capture oligonucleotide differs from its adjacent capture oligonucleotide on the array by at least 25% of the nucleotides when the oligonucleotides are aligned with one another without internal insertion or deletion.
